Textbook Mankiw, N. Gregory, (2009), Principles of Microeconomics (6th Edition) WITH APLIA ACCESS. Cengage Learning

Buying Aplia on its own is expensive. I have negotiated a price of \$108 for the bundle when the book plus Aplia is purchased at the Cengage Brain microsite:
<http://www.cengagebrain.com/micro/1-1A101>

Aplia: Each student must enroll in Aplia in addition to providing additional learning materials, there are weekly quizzes on Aplia which will be graded. Each quiz is due by 10am on Monday

The first Aplia quiz is due at 10am on Monday, 28 January

"Clickers" Each student must buy a clicker. If you do not already own one, a clicker may be purchased at the University of Colorado bookstore. Clickers will be used to promote faculty-student interaction. They will also be used to give class problems which will be scored.

Clickers should be registered at <https://myCUinfo.colorado.edu>

Course description:

Microeconomics is about what goods get produced and at what prices they are sold. The individual must decide what goods to buy, how much to save and how hard to work. The firm must decide how much to produce and with what technology. The course explores how the magic of the market coordinates these decisions. I

Concerning

Classroom Behavior:

Students and faculty each have responsibility for maintaining an appropriate learning environment. Those who fail to adhere to such behavioral standards may be subject to discipline. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, color, culture, religion, creed, politics, veteran's status, sexual orientation, gender, gender identity and gender expression, age, disability and nationalities. Class rosters are provided to the instructor with the student's legal name. Will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records.
