What is the role of government regulations and taxation? Why do countries trade? We will review these and other questions through the lens of both microeconomic theory and real world data.

## Exams and grading:

We will have two in-class midterms and a cumulative final exam. There will be no make up exams. The weights of the final grade are as follows:

Final exam:	40%
Maximum of Midterm I and Midterm II:	30%
Clicker questions:	10%
Homework assignments:	10%
Recitations:	10%

When calculating the final grade for the class, I will use the maximum score you get for either of the two midterms. Hence, if you miss one of the midterms, the score for this test will be automatically dropped. However, if you miss both midterms due to a documented medical reason (you will have to provide proofs for both), the weight of the midterm will be shifted to the final exam. There will be no make up exams or extra-credit assignments. If your scores for both midterms are in top 5% of the class, you will get 10% added to your final exam.

Religious Holidays. Campus policy regarding religious observances requires that faculty make every effort to deal reasonably and fairly with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. - Students who miss homework assignment or the midterm exam due to religious holidays must notify me at least two weeks in advance explaining the reason for absence. If this is the case, the weight of the missed homework will be shifted to the remaining assignments and the weight of the midterm exam will be shifted to the final exam. There will be no make up exams or extra-credit assignments.

Those who fail to adhere to such behavioral standards may be subject to discipline. Please advise me of this preference early in the semester so

- I will discard 6 clicker questions with the lowest scores. These include missed questions due to absence.
