MindTap Homework 15%

Recitation 10%

Your overall average score will not automatically translate into a certain letter grade. I will determine the mapping from this score to letter grade once all assignments are graded. In practice, this means for example that a 88% average score may be an A, or alternatively, a 91% average score may be a B+. I will report in class the average, maximum, and minimum scores on the tests which I will give you feedback on how your class performance translates into letter grades
