Fall 2019

Instructor:

Loren Kruschke ([loren.kruschke@colorado.edu](mailto:loren.kruschke@colorado.edu))

Office Hours:

to these materials will be turned off and you will have no way to complete assignments.

You must opt out of this charge by clicking the link in your "Day 1 Digital Access" email by September 11<sup>th</sup> or you will be billed for the materials.

Attendance:

Since this is a college course that uses a specific textbook to introduce and define concepts, you are expected to attend every lecture. However, because you are all (legally) adults, I do not require attendance. You are responsible for all material presented in lecture. If you miss a class, it is your responsibility to connect with a classmate to get the notes that you missed. Of course, you may also meet with me or your TA at office hours to go over any course material.

Please note that this does NOT mean that you can enter and/or leave class whenever you want. It is distracting to other students (and myself) when people exit/enter the roomy

meet in my office to discuss an alternative testing plan. Note: A time-stamped note from Wardenburg does not automatically qualify as extreme illness.

If you miss the final exam, you will receive a 0 on the test. Under extraordinary circumstances, I will assign you an incomplete in the course. Re-writing the final exam takes a significant amount of time; I cannot give make-up final exams on short notice.

Grading:

Your final grade in this course will be determined as follows:

Item	Percent of Final Grade
Recitation Grade	15%
Midterms	25% each
Final Exam Grade	35%

I will curve final course grades so that the class average is an 80%. If necessary, exam grades will be curved up so that the course average on each test is a 75%. I will never curve grades down.

At the end of the term, you will receive a letter grade which includes +/- . I will strictly adhere to the assignment of your letter grade based on your percentage grade in the class. This means I will not individually curve your letter grade
