Midterm Exam	20%
Final Exam	30%

Class Participation and Attendance: Because the best way to learn applied econometrics is to actually do it, it will be assumed that all students will be in attendance every day. That said, I will be enforcing the administrative drop rule for the first week of class, so be there or get booted. Participation in class discussion will constitute 10% of your final grade.

Problem Sets: There will be a total of 5 problem sets assigned during the semester. You may work with a partner, but each student should individually submit their assignment (with both names on it). The problem sets will be a mix of analysis in STATA and interpretation, so plan ahead if you don't own your own copy of STATA.

Midterm and Final Exams: The midterm will occur in-class roughly mid-March, with the final taking place on finals week.

Week 11 3/27-3/31:	Fall Break
Week 12 4/3-4/7:	Omitted Variable Bias and Research Design
Week 13 4/10-4/14:	Individual research project meetings
Week 14 4/17-4/21:	Binary dependent variables
Week 15 4/24-4/28:	Fixed effects, difference-in-differences
Week 16 5/1-5/5:	In-class presentations of research project
Final Exam 5/10:	1:30-4:00 in usual classroom
