vocabulary skills. Emoticons are fine if they are appropriate. As a rule of thumb, anything offensive is not.

5. Treat people the same as you would face-to-face. In other words, it is easy to hide behind the computer. In some cases, it empowers people to treat others in ways they would not in person. Remember there is a person behind the name on your screen. Treat others with dignity and respect and you can expect that in return.
6. Respect the time of others. This class is going to require you to work in groups. Learn to respect the time of others in your group and your experience will be much better. Always remember that you are not the only person with a busy schedule, but be flexible. Don't procrastinate! You may be one that works best with the pressures of the deadline looming on you, but others may not be this way. The same is true for the reverse. The key to a successful group is organization, communication, and a willingness to do what it takes to get it done.
