

UNIVERSITY OF COLORADO-Boulder
Economics of Inequality and Discrimination
Instructor: Dr. Alpna Bhatia
Fall 2007: Econ 4626-001

E-mail: alpna.bhatia@colorado.edu

Website: <https://culearn.colorado.edu>

Required Text: There are no required texts for this class. I will be drawing the theoretical part of my lecture from Borjas, Labor Economics, 3/E, McGraw Hill Publishers, ISBN :9780072871777. I will follow the text closely on theoretical (labor) parts of the lecture. However, most lectures are not in any one text. Also, for some topics, my treatment will be different than that of the text. The texts should be viewed as a complement to the lectures, not a substitute. I will place this book on reserve in the Library. Readings, from journals and other sources, **will** be assigned during the course of the semester. **You will need to read these.** You should also try and have access to a newspaper with substantial economic reporting such as The Wall Street Journal, The New York Times, or The Financial Times. Some of these have free content available online, some have content available through Norlin.

Office Hours: Office hours are Tues, Weds, Thursday 9:30-10:45 and by appointment. Tuesdays I will hold my office hours in Liby, Wednesday office hours are in Econ, and Thursday office hours in Sewall. These hours are reserved for you, and I encourage you to spend as much of this time as you need getting help. If you are unable to make these office hours I will also schedule appointments at other times at your request.

If any material is ever unclear, or even if everything is perfectly clear, please chat with me about economics or anything for that matter. If you have a short question, please feel free to call me or email me. For longer and better explanations, come by my office during office hours or make an appointment to see me at your convenience.

E-mail: Email is absolutely the best way to get in touch with me, except in case of emergencies. I try to be prompt about replying to e-mail. However, you must allow me 24 hours to respond. **All email correspondence will take place using your UCB email address.**

Exams: The course will include two exams: one midterm and a final. Exams will be a combination of multiple choice and short answer/long answer questions involving graphs. You should bring a #2 pencil and a **non-graphing** calculator to the exams (a ruler is also recommended). **No cell phone calculators will be permitted.** Exams will focus primarily on material presented in lecture-including material not in the text, current events, and such. If I spend class time on a topic/event I consider it material for your tests. **You are responsible for the material in the assigned readings, and in the lectures.**

I have a strict no make-up exam policy. If you miss any of the exams, no make up exam will be given. If you miss the midterm, due to circumstances beyond your control that you have documented to my satisfaction of course, then the weight on your final exam will increase appropriately. Students anticipating conflict with an exam date due to religious observance must bring these to my attention within the first 3 weeks of class. In case of over-scheduling (3 or more exams on the same day) it is your third exam of the day that must be changed. The final is cumulative as much of the later material builds on the earlier material.

Papers: There will be an extensive written component for all assessment. Understanding the difference between description and argument is essential for a good grade on these papers. The first paper will be

Extra Credit Assignments: Might be given during the class period. If so, I will announce the assignment in the class.

Attendance: I realize that a majority of students do attend class regularly, but to aid the few that don't, in order to re-enforce the importance of attendance, it will be factored into final grades. This is subjective evaluation, on my part, of your contribution to class: you show up, behave appropriately, and contribute positively. I reserve the right to record an absence or negative grade students who spend substantial class time on non-class activities (e.g. reading the paper, sleep) or leave the class early, unless I ask you to do so.

Students may be dropped administratively if they do not attend any of the first three class meetings. This deadline is imposed so that waitlisted students can roll into the class before the end of the add period, which is 5 September.

Students who miss nine class hours will loose 10% of their final grade. Nine class hours is three weeks of classes. To be clear, these absences are intended to cover both valid (religious, illness, car breaking down) and invalid reasons for missing class. Excused absences will therefore not be granted. There will be a few students who will be unable to attend class for more than three weeks due to very

Statement on Academic Dishonesty: I strongly believe in the Honor Code and expect you to abide by it. Academic dishonesty includes, but is not limited to: Plagiarism, Fabrication, Cheating, Forgery and Altering Documents. All instances of dishonesty will result in penalty without exception. The penalty for any offense in this course is a grade of "F" for the course and the incident will be reported to the Academic Vice President. I am not kidding about this. The CU Honor Code is available at <http://www.colorado.edu/academics/honorcode/>

Discrimination & Harassment Policy: The University of Colorado at Boulder policy on Discrimination and Harassment (<http://www.colorado.edu/policies/discrimination.html>), the University of Colorado policy on Sexual Harassment and the University of Colorado policy on Amorous Relationships applies to all students, staff and faculty. Any student, staff or faculty member who believes s/he has been the subject of discrimination or harassment based upon race, color, national origin, sex, age, disability, religion, sexual orientation, or veteran status should contact the Office of Discrimination and Harassment (ODH) at 303-492-2127 or the Office of Judicial Affairs at 303-492-5550. Information about the ODH and the campus resources available to assist individuals regarding discrimination or harassment can be obtained at <http://www.colorado.edu/odh>

CLASSROOM BEHAVIOR POLICY: I generally make sure that this class starts and ends on time. It is especially important that an atmosphere which facilitates the maximum opportunity for learning be present at all times. Class rosters are provided to the instructor with the student's legal name. I will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records. I, as faculty, have the professional responsibility to treat all students with understanding, dignity and respect, to guide classroom discussion and to set reasonable limits on the manner in which they and their students express opinions. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, culture, religion, politics, sexual orientation, gender variance, and nationalities. **Each student also has a responsibility for maintaining an appropriate learning environment.** Students who fail to adhere to such behavioral standards may be subject to discipline. It is expected that all students present on a given day be attentive, polite and not a source of distraction to the instructor or any other student. I reserve the right to ask you to leave the class or mark you as absent for disruptive behavior. Here are some common disruptive behaviors:

- a) Arriving late or departing early (except for a health *emergency*) unless you make prior arrangements with me.
- b) Reading the newspaper or notes for another class unless specifically instructed by me to do so.
- c) Surfing the internet.
- d) Talking with other students about matters extraneous to the course while the class is in session, and
- e) Taking or making cell-phone calls or responding to a pager, vibrating cell during class.

Cell phones, non-class related websites, beeping, chirping, singing, game-playing, text-messaging, yodeling, and otherwise noise-making electronic things should be turned OFF during class. If I catch anyone surfing or on their cell I will give the class a pop-quiz which will substitute for that week's homework. This will also bring your class participation grade down.

The subject matter in this class can be sensitive and many of us have strong feelings about some issues.

Class Schedule* :

		Topic	Readings**	Assignment
27-Aug	31-Aug	Introduction and Review , Inequality measures	Becker,	
5-Sep	7-Sep	Wealth Inequality, Poverty, and Mobility	Gottschalk	HW 1
