

# CU Environmental and Resource Economics Workshop 2001 Final Schedule

---

*Monday, July 16*

7:45 - 8:45

## **BREAKFAST**

8:30 - 9:00

**Forest Land Conversion over Time: Implications for the Faustmann Formula** - J.C. Burgess (University of Wyoming) and D. Ulph

9:00 - 9:30

**Detection and Mitigation of Hypothetical Bias in Contingent Valuation with an Application to Curbside Recycling** - David Aadland and Arthur J. Caplan (Utah State University)

9:30 - 10:00

**Information and Effort in Contingent Valuation Surveys: Application to Global Warming Using National Internet Sample** - Robert P. Berrens, Alok Bohara, Hank Jenkins-Smith, Carol Silva and David W. Weimer (University of New Mexico)

10:00 - 10:15

## **BREAK**

10:15 - 10:45

**Neighborhood Effects on Children's Health** - Stefanos A. Nastis (University of Wyoming)

10:45 - 11:15

**Smoking Parents' Valuations of Own and Children's Health** - Mark D. Agee (Pennsylvania State University) and Thomas D. Crocker (University of Wyoming)

11:15 - 11:45

**Obtaining Unbiased Contingent Values: Further Tests of Entreaties to Avoid Hypothetical Bias** - Thomas Brown (USDA Forest Service), Icek Aizen, and Dan Hrubes

11:45 - 1:15

**LUNCH**

1:15 - 1:45

**Testing the Effects of Regulatory Policy on the Willingness of Firms to Invest in Pollution Abatement** - Michael Gallaher (Research Triangle Institute) and Randall Walsh (Duke University & University of Colorado)

1:45 - 2:15

**Optimal Monitoring and Enforcement Systems with Finite Budget** - Julio Videras (University of Colorado)

2:15 - 2:45

**Estimating the Sensitivity of Commercial and Industrial Property Values to Localized Environmental Contamination** - Laura Taylor, Keith Ilhanfeldt and Peter Grigelis (Georgia State University)

2:45 - 3:00

**BREAK**

3:00 - 3:30

**Chemical Releases, Growth, and Responsiveness to Toxicity in the United States: A Study using TRI Data** - Tisha Nakao (Baylor University) and Linwood Pendleton (University of Southern California)

3:30 - 4:00

**A Decision-Theoretic Approach to Modeling WTP from Multiple-Bounded Data** - Kevin Boyle (University of Maine), MaSouthern California)

**Keynote Address: Public Policy and Experimental Economics** - Jason Shogren (University of Wyoming)

5:00

**Cocktail Party**

---

*Tuesday, July 17*

7:45 - 8:45

11:15 - 11:45

**Integrated Economics and Ecology Through General Equilibrium** - David Finnoff and John Tschirhart (University of Wyoming)

11:45 - 1:15

## **LUNCH**

1:15 - 1:45

**Temporal Closures in Marine Fisheries: Unintended Consequences** - Linwood Pendleton and Deqin Cai (University of Southern California)

1:45 - 2:15

**The Valuation of Public Goods: why do we work?** - Nicholas Flores and Philip Graves (University of Colorado)

2:15 - 2:45

**The Effects of Economic and Social Conditions on the Functioning of Water Markets** - Charles Howe and Chris Goemans (University of Colorado, Boulder)

2:45 - 3:00

## **BREAK**

3:00 - 3:30

**Market Transactions Evidence on Environmental Values of Water in the West: A Public Hedonic Model** - John Loomis and Katherine Quattlebaum (Colorado State University)

3:30 - 4:00

**Kuhn-Tucker Recreation Demand Models with Large Choice Sets: An Application to Beach Recreation** - Dan Phaneuf, Roger von Haefen and George Parsons

4:00 - 4:15

## **WRAP UP**

---
